President's Message

Hello Residents,

Summer is in full swing here in St. Petersburg, and with the rising temperatures, we want to make sure everyone stays safe, comfortable, and prepared. Please remember to take extra precautions during the hottest parts of the day. Staying hydrated, wearing light clothing, and avoiding extended time outdoors between late morning and early evening can make a big difference. Also remember to be mindful that your pets are sensitive to the heat as well particularly the hot pavement. If you have elderly neighbors, families with young children, or anyone who may be more sensitive to heat, a quick check-in can go a long way.

We continue to experience ongoing drought conditions across the region. To help protect our shared resources, we're asking everyone to be mindful of water use. Please see detailed restrictions, now extended through Oct. 1, along with conservation tips on page 7. Let's all continue to do our part.

Your cooperation helps keep our community healthy, safe, and environmentally responsible throughout the summer season. Thank you for doing your part and for continuing to support one another. Stay cool, stay hydrated, and enjoy the sunshine responsibly.

Adriane Carter-Lovell

President

Dear Readers,

One of the goals of every community newsletter is to keep readers informed and engaged. That's easy when the news is exciting. It's a little harder when the topic is hurricane preparedness or friendly reminders about community rules—but those are often the things that matter most.

Speaking of hurricanes, yes...we're talking about them again. Last month's Clubhouse presentation was excellent, and we've included another reminder in this issue. It only takes one storm to remind us why preparation is so important. We all know someone who thought they had more time than they did. A little planning today can make a big difference tomorrow.

On the even less exciting side, our pool will be closed for approximately three weeks in September for scheduled maintenance. We know it's an inconvenience, but September is far less disruptive than the middle of summer, and these improvements help keep one of our favorite amenities in great shape.

Now for some good news! Please join us in welcoming two new advertisers: **Gulf Coast Appliance Repair** (page 6) and **McDonnell Plumbing** (page 10). If you give them a call, let them know you found them in the West Shore Village newsletter. Their support helps make this publication possible.

You'll also notice that we're looking for a new **Newsletter Editor** and **Assistant Editor**. This month we say goodbye to our Assistant Editor, **Marlys Huerta**, and thank her for the time, dedication, and enthusiasm she has brought to the newsletter. It has been a pleasure working with you, Marlys! I'm also grateful to our Board members and newsletter contributors, who consistently provide timely updates each month and make producing this publication a true team effort.

Finally, you'll find a few friendly reminders throughout this issue about living well in a condominium community. A little courtesy, a little cooperation, and a little consideration go a long way toward making West Shore Village a great place to call home.

As always, your feedback and suggestions are welcome. Please write to us at wsvbbnews@gmail.com.

Message from Maintenance

The dog days of summer have arrived, and our maintenance team has been working hard through some challenging conditions. An unusually severe drought, Pinellas County water restrictions, and the relentless Florida sun have all made keeping our community looking its best especially difficult. (Rainy season, where are you?)

Despite these challenges, progress continues. The perimeter wall is being painted in sections, and the guardhouse is receiving some well-deserved attention and fresh paint.

New Governing Documents Committee charter approved

The Board reviewed and approved the charter for the Governing Documents Committee at the July board meeting. Find a copy of the new Charter by logging into the Resident Information Portal (aka Vantaca) at home.resourcepropertymgmt.com and looking under Committees.

CREW MEMBERS CANNOT PERFORM ANY SERVICES WITHOUT A PRE-SUBMITTED WORK ORDER.

Residents must submit a work order for all maintenance requests.

WHY THIS POLICY IS IMPORTANT

 SAFETY Proper Procedures	 SCHEDULING Efficient Planning	 EQUIPMENT & MATERIALS Prepared for the Job
--	---	--

IN CASE OF EMERGENCY

CONTACT RPM IMMEDIATELY (727) 864-0004 For urgent maintenance issues	CALL 911 For life-threatening emergencies
--	---

Thank you for your cooperation!

Please don't stop our crew during work hours!!

Our maintenance staff is always happy to help, but we ask residents not to stop them while they are working to request maintenance items.

Even small requests can interrupt scheduled work and make it difficult to complete planned projects.

Please submit a work order instead—it allows requests to be prioritized and helps the team manage their daily workload efficiently.

Thanks for your cooperation, it makes a big difference to ensure smooth operations and efficient utilization of our valued staff.

In the Works

Governing Documents and Rules revisions now underway

Both the Governing Documents and Rules Committees have begun the detailed work of modernizing West Shore Village's six declarations and updating the Rules that govern our community. Many thanks to the dedicated volunteers who have donned their reading glasses to tackle these lengthy, complex, and sometimes messy documents.

Interested in following the discussions—or looking for a cure for insomnia? Meeting information is posted with the agendas at westshorevillage.net and

on the Clubhouse bulletin board.

Like all Association committees, the Rules and Governing Documents Committees serve in an advisory role. They make recommendations to the Board but cannot adopt changes on their own. Any amendments to the declarations or bylaws must also be approved by the membership before taking effect.

A colorful poster for the West Shore Village Landscaping Committee. At the top, it says "WEST SHORE VILLAGE LANDSCAPING COMMITTEE" in bold green letters. Below that, "Plan Now for Fall Planting!" in a script font. The background shows a lush garden with a fountain and a butterfly. A green banner across the middle says "TRANSFORM YOUR COURTYARD ENHANCE YOUR HOME BEAUTIFY OUR COMMUNITY". Below this, two columns list services: "WE CAN HELP!" (Florida-Friendly Plant Recommendations, Basic Courtyard & Landscape Design Guidance, Plant Selection & Placement Suggestions, Assistance with Community Requirements, Help with the Approval Process) and "WHY PLANT IN THE FALL?" (Cooler Temperatures, Less Water Needed, Stronger Root Development). At the bottom, a red warning triangle says "BEFORE YOU PLANT" with a note about Board approval. A green house icon is next to it. The bottom banner says "CONTACT US TODAY! wsvbb1@gmail.com" and "Florida-Friendly Landscaping for a Greener, More Beautiful Tomorrow!"

A poster for pool closure. The top half has "POOL" in large blue letters with a life preserver in the 'O', and "Closure" in a script font. Below that, "The pool will be" in small text, followed by "CLOSED FOR REFINISHING" in large white letters on a dark blue banner. Below this, two rows of information: "BEGINNING WEDNESDAY, SEPTEMBER 9TH" with a calendar icon, and "EXPECTED DURATION: APPROXIMATELY 3 WEEKS" with a clock icon. A third row says "This timeframe is subject to change depending on weather and any unforeseen issues that may arise." with a weather icon. The bottom section says "Thank you for your understanding and patience. We look forward to sharing an even more beautiful pool with you!" with a heart icon.

LANDSCAPING UPDATE

CHINCH BUGS

Chinch bugs are small insects that feed on the sap of grass, causing yellow or brown patches in lawns.

ADULT

- Black with white wing markings
- About 1/8 inch long
- Found on grass blades and thatch

NYMPH

- Small, black and oval
- About 1/16 inch long
- Found at the base of grass plants and in thatch

DAMAGE

Chinch bugs feed on grass blades, causing yellow or brown irregular patches that may widen and merge.

WHERE TO LOOK

Check at the base of the grass plants and in the thatch layer.

You may notice some brown patches developing in areas of the community lawn. These areas have been identified as damage caused by chinch bugs, a common turf pest during the warmer months.

To address the issue, insecticide treatments have been applied to help eliminate the infestation and prevent further damage. While the treatment will stop the chinch bugs, the affected grass will need time to recover, and some areas may require additional care before new growth is visible.

We appreciate your patience as the landscaping team monitors the treated areas and works to restore the health and appearance of our community lawns.
